

Gulf Hypoxia and Local Water Quality Concerns

www.umrshnc.org

A workshop assessing tools to reduce agricultural nutrient losses to water resources in the Corn Belt.

September 26 – 28, 2005

**Iowa State Center • Iowa State University
Ames, Iowa**

A workshop with a 'decidedly different' approach to encourage interaction and the exchange of information on tools to reduce nutrient losses to water resources in the Corn Belt. Sessions feature a short, introductory presentation followed by a panel discussion. Session topics include:

- *Fate and transport of nutrients*
- *Water management*
- *Wetlands*
- *Buffer and vegetative filter strips*
- *Nitrogen rates*
- *Nitrogen application timing, forms, and additives*
- *Phosphorus fertilizers*
- *Animal manures*
- *Erosion control practices to reduce sediment and nutrients*
- *Alternative cropping and cover crops*
- *Field-scale tools*
- *Watershed-scale tools*
- *Evaluating nutrient loss reduction effects*
- *Soil organic matter content*

Early registration for this program is \$175 and includes meals, workshop materials and a copy of the workshop proceedings. Registration also includes admission to Iowa State University's Reiman Gardens for an evening reception and social.

Visit www.umrshnc.org to complete your registration today.
